

# Managed IT Services

## What are Managed IT Services?

Managed Services takes a proactive approach to managing your Information Technology (IT) to prevent technical issues before they disrupt your business. By employing a best practices approach and an integrated set of automated systems, IT Vizion provides systems and networks monitoring, hardware/software auditing, desktop/server provisioning, patch management, security IT services, help desk and backup & recovery planning.

## BENEFITS OF MANAGED SERVICES

- 1 STOP PROBLEMS BEFORE THEY START**

IT Vizion is proactive, not reactive. We perform preventative maintenance so that we are able to prevent 90% of technical problems from occurring in the first place. Just as you need to change the oil in your car in order to keep things running smoothly – your network needs to be maintained as well. By performing these simple tasks we are able to avoid potential pitfalls that can be costly to your company through downtime.
- 2 PEACE OF MIND**

You have the peace of mind knowing that your systems and network run efficiently and flawlessly. You are able to focus your energy on your company's core competencies rather than worry about your IT. IT Vizion ensures that you get the most out of your network and that it stays up and working - so you can too!
- 3 ONE VENDOR RELATIONSHIP**

When you do have a technical problem, you will have one point of contact – IT Vizion. We are just a call or click away. No need to figure out which vendor services which program or system. We do it all!

# about IT Vizion

available knowledgeable friendly  
dedicated organized proficient  
reliable

IT Vizion is a local, independent, and innovative IT solutions provider focused on delivering custom-built solutions to meet the needs of any growing business.
