

THE ART OF THE DATA

COMPANY BROCHURE

IT MANAGED SERVICES • DATA ANALYTICS • OPERATIONS
INTELLIGENCE SOFTWARE & SERVICES

IT Vizion are experts in the use of Operational Technology (OT) and IT with a track record of introducing data driven innovations for Industry that help companies to achieve better business outcomes.

YOUR DATA IS OUR SCIENCE

PI SYSTEM SOLUTIONS

IT Vizion are System Integration partners for AVEVA PI System, providing customers with a robust time-series data historian, infrastructure and data visualisation.

XHQ DECISION SUPPORT

IT Vizion has a unique combination of XHQ expertise and industrial domain expertise. We provide end-to-end Lifecycle Management for XHQ Solutions. Including architecture, deployment, support, upgrades, and ongoing maintenance.

SEEQ ANALYTICS

IT Vizion are resellers and service providers for Seeq Corporation. Seeq is the first application dedicated to process data analytics. Search your data, add context, cleanse, model, predict, find patterns, establish boundaries, monitor assets, collaborate in real-time, and analyze time-series data like never before.

VIZION APPS

A suite of tools that help derive more value from your data and operational intelligence solutions:

- Automate routine tasks
- Simplify data interaction and data consumption
- Shorter-time-to-solution

YOUR IT IS OUR PRIORITY

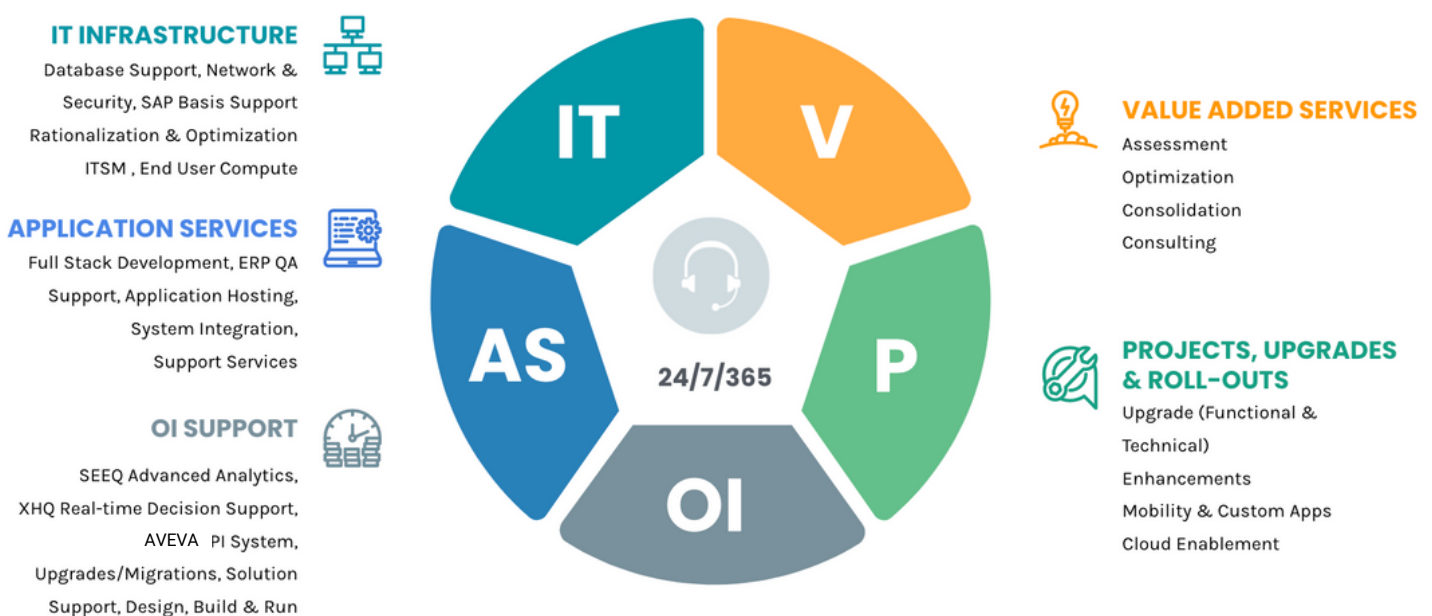

IT Vizion provide flexible and reliable Managed IT Services to any size business that is looking to optimize and improve IT operations. IT Vizion delivers based on MTTR and domain experience. We endeavor to provide ongoing and proactive services with a team that cares for your business needs. We offer scalable solutions, helping you to augment and align your service delivery to the business users.

We understand the pain-points of an enterprise and how important it is to avoid service interruption and the cost impact of

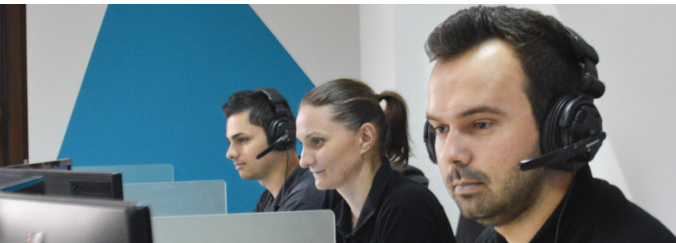

sustained errors. The need to reduce cost and efforts without disturbing stability or jeopardising compliance, security and quality is omnipresent.

Here at IT Vizion, we firmly believe that your strategic partner for managed services must have the right blend of process and tool expertise, coupled with domain knowledge. Our objective is to provide a safe pair of hands for your IT Assets and Infrastructure to facilitating returns on your digital investments.

Focus on your core competence and IT Vizion will take care of your IT infrastructure
